This record may be shared with other healthcare professionals and additions to this record may also be made by relevant healthcare professionals and organisations involved in your direct healthcare.

SCRs are there to improve the safety and quality of your care. SCR core information comprises your allergies, adverse reactions and medications. An SCR with additional information can also include reason for medication, vaccinations, significant diagnoses / problems, significant procedures, anticipatory care information and end of life care information. Additional information can only be added to your SCR with your agreement.

Please be aware that if you choose to opt-out of SCR, NHS healthcare staff caring for you outside of this surgery may not be aware of your current medications, allergies you suffer from and any bad reactions to medicines you have had, in order to treat you safely in an emergency. Your records will stay as they are now with information being shared by letter, email or phone. If you wish to opt- out of having an SCR please inform the Surgery.

To find out more about the wider use of confidential personal information and to register your choice to opt out if you do not want your data to be used in this way, please visit <https://www.nhs.uk/your-nhs-data-matters/>.

Note, if you do choose to opt out, you can still consent to your data being used for specific purposes. However, if you are happy with this use of information, you do not need to do anything. You may however change your choice at any time.

Who we may provide your personal information to and why:

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care Services, important information about you is collected to help ensure you get the best possible care and treatment. This information may be passed to other approved organisations where there is a legal basis, to help with planning services, improving care, research into developing new treatments and preventing illness. All of this helps in providing better care to you and your family and future generations. However, as explained in this Privacy Notice, confidential information about your health and care is only used in this way where allowed by law and would never be used for any other purpose without your clear and explicit consent.

We may pass your personal information on to the following people or organisations, because these organisations may require your information to assist them in the provision of your direct healthcare needs. If, therefore, may be important for them to be able to access your information in order to ensure they may properly deliver their services to you:

- Hospital professionals (such as doctors, consultants, nurses, etc)
- Other GPs/Doctors
- Pharmacists
- Nurses and other healthcare professionals
- Dentists

In order to provide you with this service, we have formal arrangements in place with the Clinical Commissioning Group and with other practices whereby certain key ‘hub’ practices offer this service on our behalf for you as a patient to access outside of our opening hours. This means, those key ‘hub’ practices will have to have access to your medical record to be able to offer you the service. This therefore protects you from anyone who may have access to this information at the Clinical Commissioning Group from every identifying you as a result of

seeing the medical information and we will never give them the information that would enable them to do this.

There are good reasons why the Clinical Commissioning Group may require this pseudo-anonymised information, these are as follows:
